

## DAY BY DAY

### Things We Want To Say

The hullabaloo about gas rationing to save rubber. Is the enemy right—that we are too soft to take it . . . to give up our creature comforts?

As the committee said in its report—it means "discomfort or defeat."

Not an action toward victory can be taken that does not hurt someone some how—that does not mean a denial of some kind.

Isn't it time we placed more trust in those charged with achieving victory . . . those who know and have the facts . . . those trained in war?

Here we are **SOLDIERS ALL** in this all-out war . . . one **Grand Army**—side-line privates quibbling with and questioning our commanders . . . why do "this-a-way" and "that-a-way" . . . time-fritterers of our leaders and war efforts . . . cracker-barrel generals, strategists, experts on all known subjects . . . telling 'em—we won't and don't and why—and how? . . . **WHAT AN ARMY!**

**Friends!** We'll begin winning this war when we have learned to **TAKE ORDERS**, and like 'em—and without any back talk . . . the same as buck private in battle. When each and everyone of us in this all-the-people war have become a Rowan—the man who carried the message to Garcia.

**Soldier All (?)** . . . Every man a general, spouting orders and taking none. Our every complaint a self-indulgent that we are expecting to win this war as bystanders on the curb.

**Get a mirror** . . . when you feel that "stirring" urge to go mouthing against the government and the officials heading our war effort, asking why we are not winning the war . . . take a good look at yourself.

Have we become a nation of Dr. Jekyll's and Mr. Hyde's . . . As one, we send our boys to war, buy bonds, pay taxes; as the other, slow-up the war effort—squandering time of the leaders . . . complaining and quibbling over actions and procedure that interferes with our more pleasant ways.

**Dear Uncle:** Need my shirt? Come and get it. **NO! NO! NO!** . . . It's yours, and I'll bring it to you. Here's my shoes, pants also if you need them . . . just leave me a loin cloth. **Send back to us all our boys you can—WHOLE in Body and Mind and Spirit.** We ask no more—Houston Rotary Bulletin.

## Petty Officer C. E. Crow With Aircraft Carrier Yorktown in Battle of Midway; Guest of Rotary Club Here In Navy Day Program Wednesday

C. E. Crow, 2nd Class Petty Officer, and a bombardier aboard a naval bombing plane, wounded in the battle of Midway, was a special guest of the Rotary Club here Wednesday.

Crow, a quiet Texan with plenty of drawl in his voice, shunned oratory but delighted the Rotarians and guests by answering a lot of questions. He made the shortest speech in Rotary history: "I just don't care to talk about it."

Crow is a native of Winsboro in Wood county. He said he recently stopped at an Australian port and shook hands with ten men. Eight of them were Texans. Asked if he thought Texas and Tennessee would win the war, he replied in the affirmative. The official navy version of the Battle of Midway to which Rotarian Prude invited members and guests last week, opens with music. A marine plays softly on the accordion "Red River Valley."

In the battle of Midway which was the most successful operation of the war against Japan, Crow was aboard

## ROMMEL DRIVEN BACK IN BIG DESERT BATTLE

British and American troops continued to gain in the rapidly expanding battle of Egypt and the forces of General Rommel have been driven back in sharp fighting which was opening the great battle of the wastes.

Overhead American and British airmen were doing a fine job and below tanks were massing for a decisive battle.

# ANOTHER BATAAN IN SOLOMONS

## BRITISH HAIL AFRICAN BATTLE AS SECOND FRONT

Hong Kong, Chinese City, held by Japan, a strategic base off the mainland of China, was under heavy air attack by American bombing planes Monday in an ever widening circle of attack against the Japs.

The planes reached their targets from unannounced air fields in China and have thus brought home in force the bombing war to which the Japs subjected the Chinese in the early stages of their murderous advance.

All planes returned safely. The attack was said to have been a large scale blast and was regarded as terrifying to the Japs in addition to the damage. Other Chinese ports in the Pacific were bombed by the Americans.

Chinese sources said that the raids are a growing indication of the certainty that Japan will soon feel the fury of American arms.

The bombings continued for two days and in addition to the havoc wrought 10 Japanese planes were shot down.

Meanwhile in Egypt the Allies were pressing their attack on the lines of General Rommel and in London the new campaign was hailed as a second front. Both American and British forces are said engaged in the battle. Rommel was using dive bombers in an effort to stem the fury of the Allied war on his lines.

The German lines have been broken in many places. There was every indication that the offensive launched by the British with the aid of the Americans will be the prelude for an early invasion of Italy.

The Russians were holding fast in Stalingrad as the tempo of Allied attacks was stepped up on all fronts. The Germans have been unable to gain anywhere and have suffered heavy casualties.

United States troops in the Solomons have hurled back attack after attack by the Japs and in addition have shot down many more planes and damaged ships.

Chief Eady was accompanied by C. E. Crow, 2nd Class Petty Officer, who was wounded in the battle of Midway as a bombardier aboard a naval bomber. He was on the Yorktown, aircraft carrier which was sunk.

Eady said he is not convinced there will be a second front in the sense the people think of it. Instead he said that internal unrest plus bombings and blockades will defeat the Axis.

The Navy will not accept inductees and depends on volunteers for men in the service.

## FUNERAL SERVICE FOR EMIL RICHTER TODAY

Funeral services were held at 3:45 Thursday afternoon at Thorndale from the home of F. W. Schwartz.

Mr. Richter's body was found Wednesday in a barn on his farm. He had hanged himself with a rope. He was a veteran of World War No. 1. He was gassed and had never been in complete health and during recent months had grown worse. He was about 46 years of age.

## AMERICANS HEMMED IN ON THREE SIDES

Another Bataan! So feared Washington and so feared the American people as reports came in Thursday that American Marines and American regular army troops are hemmed in on three sides in the Guadalcanal Island of the Solomons Groups.

There was no escape except to sea, it was said in noon broadcasts.

Unless help can be put through the men are facing another Bataan.

At noon a broadcast said that the Japanese navy like a giant octopus is closing in on the entire Solomons and also the Fiji Islands. This would account for an attack by American bombers 600 miles from Guadalcanal on a Jap fleet.

The island on which the American forces are trapped is 6 miles long, 3 miles wide. Aid must come to the brave forces in the Solomons or all is lost.

The Japs were moving in with great striking power. The Americans have lost air superiority and the Japs control the air.

Japanese losses have been heavy. The Japs have a numerical superiority in all departments of the battle.

Japan according to noon news reports was risking a great fleet in the all out battle. There was no chance for the Americans if some stroke of strategy does not put at the command of the navy and land forces greatly increased reinforcements.

In Washington there was no official comment but informed circles said the situation is very grave.

Reliable news is hard to get. This report may be greatly exaggerated. Under censorship the American people do not know what is going on.

Elmer Davis who was a free commentator before surrendering to the government, said that all ships sunk up to Wednesday have been reported.

Fighting has calmed down in Egypt with the Germans offering stronger resistance.

The Reds are standing firm against increased Nazi pressure in Stalingrad.

The Killeen Kangaroos meet Cameron Yoemen on Yoe High Field Friday night in their annual grid game.

This is the first game played on Yoe High Field this year that the home team is classed as a definite underdog. Killeen is tied with Taylor for first place in the District 31a football race. The Kangaroos have won all of their games while the Yoemen have won three and lost three so far this season. Killeen defeated the Yoemen last year 6 to 0.

The Yoemen will finish the season without the aid of one of their outstanding tackles, Darrell Tindall. Tindall received a leg injury in last week's game with Taylor.

Rosebud has been forced to drop football for the remainder of the season because the coach enlisted in the United States Armed Forces.

Telephone the news to 282.

## YOEMEN BADLY BEATEN BY THE TAYLOR DUCKS

Taylor, Oct. 23.—The powerful Taylor Ducks continuing their march to another district 31A championship, rolled over Cameron's Yoemen here last night 27 to 6.

Starting their scoring spree in the initial frame, the Ducks made seven points in the first, seven more in the second, and then 13 in the third. Cameron chucked up its lone marker in the fourth, with Torno running over from inside the 10 after a pass set up the score.

All of Taylor's touchdowns came from within the 10, with W. C. Seale running for three and Clinton Jirasek scoring the other. Slack kicked three extra points.

Taylor dominated play throughout the game, and besides Seale and Jirasek, Nelson at tackle and White at center stood out for the defending champs. Torno back and Michalka at end, looked best for the Yoemen.

Mrs. M. Janeway visited her father and mother who live in Marlin, yesterday. Mrs. Janeway is now day clerk of the Cameron Hotel.

Jim Perkins of Hearne is business visitor in Cameron.

## Army Disagrees With Roosevelt on Releasing Men Over 35 Years

President Roosevelt Wednesday stood at variance with the army over the proposed release of men over 35 from the army.

Army leaders say they do not agree and expressed it "we do not see eye to eye with the President on his proposal."

The proposal by the President was received with amazement by the army. All that France disbanded her part of the army at this time is to remind all that France disbanded her army to some extent and sent them home when the Germans were preparing for their invasion.

A strange sort of procedure and has come with great shock to the people.

Mrs. John P. Howard of Lubbock, has returned to her home after spending two weeks here with her sister, Mrs. Perry Wilkerson. Mrs. Howard before her marriage was Miss Edna Carlton and lived in Cameron.

The many friends of Mrs. Gladys M. Watson of Fort Worth, will be glad to hear that she is now improving from a serious spell of illness at her home and will soon be able to be up and going.

Krause, Fleming and Eiland looked good for Rockdale. The team penetrated three times but was unable to score. Georgetown scored 14 first downs against Rockdale's nine.

Mrs. Joe Harvey and brother, Dan Legacy of Coue de Lane, Idaho, are here on a few weeks visit with relatives, Dr. Eduard Rischar, Miss Rose Rischar and Miss Malchain Rischar.

Buy Victory Bonds and Stamps

From where I sit...

by Joe Marsh

HAPPENED to me only yesterday. I step on the starter of my car. Engine turns over O. K. but she won't start.

So I look under the hood just as if I know what's the matter. Tap a few things with a wrench. While I'm standin' there, wondering what to do next, a young soldier stops alongside.

"Need some help?" he asks.

"Got her almost fixed," I says. "But still she won't start."

"Looks like your carburetor's flooded," he says. "Got a screw driver handy?"

That young soldier knew what he was doin' all right. Went to work just like a professional.

"She'll be O.K. now," he says, straightenin' up and smilin'.

Boy's face looked sort of familiar. And darned if that soldier wasn't young Charlie Jenkins from Elm Street. Used to be a round-shouldered kid—one of those jitter bugs you hear about. Say! You wouldn't know him after six months in the Army. Fifteen

pounds heavier—straight and tan and real sure of himself. The Army's done a lot for Charlie. Made a man out of him—and I guess that goes for lots of other young fellows, too.

The other day I read how some folks worry about the soldiers havin' a glass of beer now and then. Well, after seein' Charlie, I don't think there's much cause for people to fret.

Just like Charlie says—"If you can trust us with guns and ships and tanks, I guess you can trust us with a glass of beer once in a while, if we happen to want one."

And I know the beer industry is co-operating with the Army and the law-enforcement officers to see that beer is sold in good, clean, decent places.

From where I sit, this country's never seen a finer, cleaner, better-behaved lot of men than the ones in uniform today... I'm not worryin' about 'em!

## WE LOSE HEAVILY IN FIERCE NAVAL BATTLE

News from the South Pacific where Japan has challenged the power of the United States to hold the Solomon Islands, was almost blacked out by censorship.

Secretary of the Navy Knox, a newspaper man, but a poor news giver, led the American people to believe that Japan has concentrated great naval strength in the battle. At the same time he said he would not predict the United States would lose the battle.

One aircraft carrier, one destroyer have been sunk. Another aircraft carrier has been damaged and some cruisers have been damaged.

The Navy Department could not claim any Japanese ships sunk but said that some had been damaged.

The American air force was doing a good job with 28 Japanese ships shot out of the skies this morning in a fierce engagement. It appeared from announcements that the Americans have won air supremacy.

The Japanese through the Berlin radio claimed that 4 American aircraft carriers were sunk, two battleships sunk, two heavy cruisers sunk and two destroyers, a total of 10 naval vessels. There was no disposition to regard the claim as anything like authentic.

That we have taken some heavy losses is acknowledged by official circles. The outcome of the battle was still in doubt.

The Japanese were continuing to land troops but the Americans, both Marines and army troops were throwing back each successive wave of Japanese.

The British were advancing in Egypt and American bombers and RAF planes were blasting a path for the advancing army. General Rommel was in a bad way.

The Reds were driving the Nazi back at Stalingrad and inflicting heavy losses. The Germans were reported to be attacking with great fury, disregarding their losses.

## REDS DRIVE WEDGE IN GERMAN LINES

British bombing planes were over Genoa Thursday night in one of the big air raids of the war.

The planes flew from England across the Alps to give Mussolini's country the worst pasting since the Italian stab in the back at France. The Italian high command admitted great damage had been wrought by the bombers over Genoa and other sections of Industrial Italy.

The bombers, all of them returning safely to their bases, had to fly 1500 miles to get at Genoa and other military objectives on the Mediterranean.

Turin, seat of munitions plants and hydro-electric power plants was also bombed.

The raid on Italy was one of a number of sweeping offensives against the Axis over the day.

A British naval squadron has shown up in the Indian ocean which includes 3 battleships, it was reported Friday.

The Russians have captured new strategic points in the Stalingrad battle and have driven a deep wedge into German lines.

American bombers were hammering the Japs in the Solomons and allied air support was increasing in Egypt.

It was retroactive to October 17. The personnel change was the first made since Jester became a member of the commission, replacing Jerry Sadler, who is in the army.

## FORMER RESIDENT HERE DIES IN HOUSTON

## Axis Propaganda Is Discussed at Meeting Of Business Women

An expose of Axis propaganda with special emphasis on the German effort was discussed Tuesday night at the meeting of the Business & Professional Women's Club by J. B. White editor and publisher of the Herald.

"In our own community not many days ago the same Nazi trick sent hundreds of car owners in their pajamas to filling stations to get surplus gasoline," said the publisher, discussing the methods used in pre-invasion days before the fall of France.

"The Cameron incident was a test to see what the American people would do under given circumstances."

Hitler's tactics were discussed at length, including the brutalities in Poland and other countries.

In the discussion of German propaganda methods it was shown how morale had been broken in the countries of Europe to prepare the way for invasion.

The club voted to sponsor a Girl Scout Troop and committees were named.

Miss Ann Stallworth was hostess for the evening and served a "Victory Supper." Miss Delphya Scott was program chairman and introduced the speaker. Mrs. J. B. White and John Summer Batte were guests of the club.

Rockdale, Oct. 23.—Funeral services for J. Walter Floyd, 64, who collapsed at the wheel and died immediately while driving into Rockdale Thursday, were held Friday afternoon from Phillips & Luckey chapel. His death was due to heart ailment.

H. Floyd of Rockdale, S. M. Floyd of San Antonio, W. M. Floyd of Austin, and seven grand children and one great grand child.

## JAPS COMING IN WITH GREAT FLEET AND MEN

The battle of the Solomon Islands was growing in fury and scope Wednesday as the Japs came in with a great fleet and with thousands of reinforcements.

Would Guadalcanal be another Bataan? That was the question many were asking as news from the blasting grounds and waters of the great battle came in. Beyond the statement that the battle is growing in fury and space, there was no official statement.

Tuesday the Marines and Army troops threw back wave after wave of Japs who at one point penetrated the lines around the precious air field of Guadalcanal.

Wednesday the American air forces were striking hard blows in an ever expanding sphere of operations, blasting Jap ships and fighting air duels to climax 48 hours of fierce fighting.

With the announcement that the airmen are covering a wide range to attack Jap Ships, indicates strongly that the battle is to be one of a decision and may end in American defeat.

There was no tendency to doubt the efficiency of the forces involved in the battle but it must be kept in mind Japan may be able to throw vastly superior forces into the fray.

In Washington President Roosevelt and Secretary Knox would make no comment or prediction on the outcome of the battle.

Quiet people aren't the only ones who don't say much.

## Rogers Slaughters Sharp by 117 to 0

He was killed at Jacksonville, Fla., last Monday. He joined the Navy last January and was killed when struck by a flying plane. He had just completed a course in radio at the Naval station there.

From where I sit . . .

by Joe Marsh

THAD PHIBBS' house got struck by lightning a couple of nights ago. The kitchen chimney was knocked off and the roof set on fire, and Thad found things pretty lively and exciting for a spell.

The fire was soon out though, thanks to the prompt and efficient work of the local fire department, as the paper says . . . and I never seen a man so grateful as Thad.

Chief Ed Carey was sort of embarrassed, I guess, by the thanks that was being heaped on him.

"That's all right, Mr. Phibbs," he says. "That's all right, sir—that's what you pay taxes for."

From where I sit, I'd say Chief Ed's remark seems to have a lesson in it . . . a lesson on the way that taxes come back in mighty real benefits to the people.

Take the taxes on beer, for instance—more than 2½ billion dollars, I hear, figurin' federal, state and local, in the nine years since beer's been back.

There was a time—remember—when a lot of that money went into the pockets of bootleggers and

blind pigs. But today it's coming right back to the treasuries of the nation, the states and the local communities . . . for the benefit of everybody.

Some goes, for example, to pay for the things Uncle Sam needs to fight the war with . . . for tanks and ships and bombers.

Quite a lot goes for things like public health, and education, and good roads and the like.

And some of it, I surmise, has gone to support the fire company that gave Thad such good service the other night.

To moderate folks, who like a friendly glass of beer now and then, there's a sort of satisfaction in knowing that right now this beverage of moderation is furnishin' the public treasuries well over a million dollars every single day.

That's quite a lot of money—especially nowadays when Uncle Sam needs every cent he can get hold of.

## MILEAGE REGISTRATION BEGINS ON NOVEMBER 12

Registration for mileage rationing in Milam County will be conducted on November 12, 13 and 14, Sam Perry, Chairman of the Milam County War Price and Rationing Board announced today, and actual rationing of gasoline will begin November 22nd.

"We have been advised that Washington expects to have the application blanks available by November 7," Mr. Perry said, "but everyone should watch the newspapers for our announcement when these application forms are available. We will try to see that they are distributed at garage tire inspection stations where every passenger car owner can obtain an application form conveniently."

He said each motorist should fill out the form listing the serial number of each tire. Then on one of the registration days the motorist should present this application form at the school house nearest his residence to be issued a basic "A" ration book for gasoline. Any motorist who is away from home in another county should register wherever he is on one of those three days—November 12, 13 and 14.

School officials have been requested by the County War Price and Rationing Board to co-operate in the registration as was done in the sugar rationing registration last May.

Mr. Perry said the Board has completed setting up a fuel rationing panel to handle applications and other matters which the program will entail.

"Those who feel they are entitled to a supplemental ration provided by the 'B' or 'C' books should obtain another application form for this at the place of registration where the 'A' book is issued," Mr. Perry explained.

He emphasized that every passenger car owner must sell to the Government before November 12 all tires over five for each vehicle.

"That means," he explained, "that the car owner is allowed one tire for each running wheel and one spare for the car. A registrar can not issue him a mileage rationing book for that car if he owns tires in excess of that number."

For that reason excess tires should be turned in before Nov. 12, to a local Railway Express Agency which will tag the tire and the seller will receive a check from the Government, or if he chooses, the Government will pay him in War Stamps or War Bonds for his excess tire or tires.

Commercial vehicles, trucks and farm trucks must obtain a Certificate of War Necessity from the Office they are registered for mileage rationing with the local War Price and Rationing Board. The ODT has mailed these forms to all owners of commercial vehicles that were registered last December 31. Persons who have not received these application forms should write immediately to the nearest ODT Field Office. In Texas these

offices are located in Dallas, San Antonio, Houston, Lubbock and Austin.

As soon as this form is received it should be mailed back to the ODT in time for the applicant to receive a Certificate of War Necessity by Nov. 15, when it will become mandatory that every commercial vehicle and truck carry one of these certificates at all times.

## Stenographers Are Wanted at Camp Hood

Stenographers and typists are urgently needed for immediate employment at \$120 a month in various federal offices in Temple and vicinity, C. H. Lewis, Jr., Secretary, Board of U. S. Civil Service Examiners, Camp Hood, said today.

Stenographers must be able to take dictation at the rate of 80 words a minute. Typists must be able to type about 35 correct words a minute.

Applicants must have reached the age of 18 years.

Applications should be filled at once with the secretary, Board of U. S. Civil Examiners, Camp Hood, or with the Civil Service Representatives at the U. S. Employment Service, 6 W. Adams Street, Temple.

Applications are not desired from persons now engaged in war work,

except in cases where the position requires a higher skill than the person now uses in his present employment.

## Certainly, ranges are rationed Here's why:

## Range factories are making War Goods

IT'S a good sign, too, when you think about it. It means this country is bearing down on the war. Think of the guns, tank-plates, and airplane parts that American gas-equipment factories can turn out (some of the range factories had been making 550 ranges per day).

Take good care of the gas range you have. Gas ranges are for sale in the U.S.A. only to those persons who positively need them. (The same applies to Water Heaters).

## WASHINGTON

By  
CONGRESSMAN POAGE

Early this week both Houses adopted the Conference Report on the Tax Bill. The following day the measure was signed by the President and is now law. This Tax Bill has been the subject of continued discussion both in and out of Congress for the major portion of the year. It directly affects, probably 40 million citizens who have never heretofore paid an income tax.

Our heretofore existing tax laws have produced about \$18,000,000,000. These taxes were paid by about 6,000,000 tax payers. All of these taxes are retained. The taxes will produce about \$8,500,000,000, but from this figure must be deducted about \$1,700,000,000 post war credits that must be repaid by the government. The Federal Government will, therefore, collect in taxes approximately \$25,000,000,000 which will probably be something less than one-fourth of the national income and something less than one-third of the estimated Federal expenditures for the coming year. In other words, it will be necessary to sell two dollars of bonds for every dollar of tax collected if the Federal Government is to have the funds needed to carry on the war. Personally, I can only understand these figures by applying them to my individual income. I know that this tax bill will take approximately one dollar out of every three that I earn. (Contrary to a widespread opinion, Congressman pay all Federal taxes on all of their income just as other citizens do.) The man who makes \$1,000,000 will pay 90 per cent of this in income taxes, and if this income is derived from corporation stock, it should be kept in mind that before the individual ever began to get any income, the corporation was required to pay various taxes including excess profits which might range up to 90 per cent depending on the sizes of the corporate income and its relation to the normal income of the corporation.

Thus, it is easy to see that even though there are still many individuals and corporations who are making excessive profits from this war, there certainly will not be the number of war-time millionaires that there were in the First World War when our to-

tal Federal tax bill was only approximately \$6,000,000,000 per year with a national income approximately as high as it is today. This fact made it possible for Congress to include in this bill certain provisions removing some of the uncertainty and hardships involved in the renegotiation of war contracts. I think that the renegotiation method is fundamentally unsound and should, and I believe will be, superseded by appropriate provisions for the collection of additional excess profits taxes in the next tax bill. The system of renegotiation of contracts involves every war contract with an element of uncertainty which is burdensome to the contractors and must of necessity finally add to the costs born by the Government. On the other hand, with a proper system of excess profits taxes, the Government can give the contractor absolute assurance that he will receive the compensation promised, but if his profits are unconscionable, the Government can recover them in the form of taxes. This bill goes a long way in that direction, but there is room for further improvement.

But back to the effect on the average citizen: This bill levies a Federal tax on every person who earns an excess of \$624 per year. In addition to the regular income tax, a so-called "Victory Tax" of five per cent of all income in excess of \$12.00 per week is to be collected. This tax is not collected on that part of the individual's income below \$624. No deductions are allowed in the Victory Tax, but certain credits for dependents, interest payments, charitable contributions, etc., and other credits will be returned to the tax payer after the war. Generally speaking, it can be said that the post war credits will amount to approximately 25 per cent of the amount of the Victory Tax paid by single persons and 40 per cent of that paid by married persons. If you make \$700 per year, your Victory Tax will be only \$3.50. If you make \$1200 per year, it will be \$28.80 and so on up.

This Victory Tax is to be collected by a so-called "withholding" Tax. This means that all those who work for a fixed wage on salary will have the tax withheld by the employer who in turn must pay the government for all of those who work for him. The arrangement is very similar to that now in force in regard to the social security tax, and like that tax, the with-

holding features will not apply in the case of farm laborers, domestic servants, etc., but these classes will nevertheless owe the tax the same as other wage earners. The only difference is that they will pay directly to the government at the end of the year.

SEA, LAND AND AIR  
ATTACKS ARE LAUNCHED

The British, supported by American tank and air units have launched what was described as an all out attempt to end the war in North Africa and to drive General Rommel from Egypt.

The attack which for some time has been anticipated and also believed to have been carefully planned, was launched at night and air, sea and land forces are involved in this new offensive, one of many launched by the British only to fail in North Africa.

There was no definite news of the progress of the battle but advance indications were it was certain to be a show down fight.

Meanwhile in Stalingrad the Germans were a sorry lot. They were being thrown back and slaughtered as the army of Timonshenko held and in some places gained ground. Now in the 60th day of siege the industrial city on the Volga may be the turning point of the war. The Russians have shown they can whip the Germans and have done a good job thus far.

Winter which has been a factor in the fighting in Russia, was closing down over the white grave yard.

That Extra Something!

...You can  
spot it every time

IT TAKES "know how" to do a job right. The makers of Coca-Cola have specialized in knowing how to produce refreshment.

Coca-Cola is a quality drink carefully made... with years of experience behind it. A finished art in its making, unknown to others, gives Coca-Cola an unmatched taste-appeal with an unmistakable after-sense of refreshment. A blend of special essences adds to the goodness of Coca-Cola an extra something that everybody welcomes.

More than just thirst-quenching, ice-cold Coca-Cola is the drink that goes into refreshing energy. Its refreshment pleasantly lingers, reminding you that contentment comes when you connect with a Coke.

\* \* \*

Wartime limits the supply of Coca-Cola. Those times when you cannot get it, remember: Coke, being first choice, sells out first. Ask for it each time. No matter how short the supply, the quality of Coca-Cola carries on.

When the whistle blows for lunch, workers make a bee-line for the red cooler that holds ice-cold Coca-Cola. Coke is the perfect partner of good things to eat.

"Everlasting Punishment" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, November 1.

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "The Lord is nigh unto them that are of a broken heart; and saveth such as be of a contrite spirit" (Psalms 34:18.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The poor suffering heart needs its rightful nutriment, such as peace, patience in tribulation, and a priceless sense of the dear Father's loving kindness" (page 365.)
